Software Developer | Full Stack (MERN) | Java Developer

SUMMARY

Computer Science Engineering student (B.E., expected 2027) with proven experience building AI-powered, full-stack, and Android applications. Completed a Software Development & Cybersecurity internship, hold certifications in AWS Solutions Architecture and MERN stack, and have shipped REST API-driven products using Java, React.js, Node.js, and MongoDB. Seeking a Software Developer internship to contribute to scalable, production-grade systems.

Core Stack : Java • React.js • Node.js • Express.js • MongoDB • AWS (EC2, S3).

EXPERIENCE

May 2023 - Jun 2023

Software Development & Cybersecurity Intern

- Designed and shipped 2+ Android applications in Java using Android Studio, following MVC architecture and OOP principles.
- Identified and resolved 10+ bugs across multiple modules through systematic testing and debugging, improving app stability.
- Conducted security assessments and penetration testing exercises under mentorship, gaining hands-on exposure to cybersecurity workflows.
- Collaborated within a 5-member cross-functional Agile team on web and software development deliverables, meeting sprint deadlines consistently.

PROJECT

Lawyer Connect

MERN • OpenAI API • AWS EC2/S3 • JWT

- Built a full-stack AI-powered legal platform connecting users with lawyers based on budget, specialization, and location.
- Integrated OpenAI API for chatbot-driven preliminary legal guidance; deployed Node.js backend on AWS EC2, static assets on S3.
- Implemented JWT-based authentication, appointment booking, and real-time availability via REST API endpoints.

github.com/nirajbodke18-cmyk/lawyer-connect

Student Management System

Java • MySQL • JDBC • Swing

- Developed a CRUD desktop application managing 100+ student records with search, filter, and report-export features.
- Designed a normalized 5-table MySQL schema; used JDBC prepared statements to prevent SQL injection vulnerabilities.

github.com/nirajbodke18-cmyk/student-mgmt

Portfolio Website

HTML5 • CSS3 • JavaScript

- Built a fully responsive portfolio achieving 95+ Google Lighthouse performance score, hosted on GitHub Pages.
- Incorporated smooth scroll animations, a working contact form, and a project showcase with live demo links.

EDUCATION

B.E. in Computer Science Engineering

2024 - 2027 (Expected)

DY Patil Technical Campus, Talegaon, Pune

Diploma in Computer Science

2021 - 2024

K.K. Wagh Polytechnic, Nashik

SKILLS

Languages : Java, Python, C, C++, JavaScript (ES6+)

Frontend : React.js, HTML5, CSS3, Responsive Design

Backend : Node.js, Express.js, REST APIs, JWT Auth

Databases : MongoDB, MySQL, JDBC

Cloud : AWS EC2, AWS S3 (AWS Solutions Architecture Certified)

Tools : Git, GitHub, Postman, Android Studio, VS Code

Concepts : DSA, OOP, Agile/Scrum, CI/CD basics, Unit Testing, SDLC

CERTIFICATIONS

- AWS Solutions Architecture Job Simulation — Forage, 2024
- MERN Full Stack Development — GeeksForGeeks, 2024
- Cybersecurity Certification — Cyber Sanskar, 2023
